## STANDS

### Typical stands

Typical stands construction types: Sima molto and Maxima

### Independent construction

Obligations of exhibitors who independently build a booth

- Full name and address of the company that constructs the stand shall be sent (the list of workers on the stand construction is not necessary).
- After arrival at the Belgrade Fair space, i.e. before taking the structure in the Hall 3, you have to contact the Hall Supervisor in the Hall 3, who will direct the exhibitor to the location marked for his stand construction and provide other ordered technical services.
- Minimal height of the custom stand shall be 2.5 m, and the maximal one 3.00 m.
- The allowed height of the partition wall structure is 3 m.
- If the advertising towers, columns, wall panels or others exceed the height of 3 m, the organizer's approval is necessary. Each exhibitor shall make his wall in spite of the existing one of the adjacent stand. If an exhibitor wants to use the adjacent wall as his own, he shall receive written approval of such exhibitor. The approval shall be sent with the design.
- The exhibitors shall obey the rules regarding maintenance (they must not damage any walls or floor of the Hall or any other part of it). The rules shall be obeyed during mounting and dismantling of the stands, as well as during the event. Any tackling, screwing, sticking, welding, drilling etc. of any part of the Hall shall not be allowed.
- During the light installation or any other light sources, their distance from flammable surfaces shall be not less than 40 cm.
- The stand floor may be elevated, if necessary, not more than 20 cm. The floor structure shall be processed at the edges and installed as not to damage the Hall floor.
- The exhibitor may not install exhibits outside the exhibiting space rented by him.
- Special care shall be applied as not at all to endanger the space of the adjacent or any stand, whether by the stand shelter, his posters or free access to it. The way to the fire extinguishing hydrant and the switchboard for power supply shall be free and passable any time.

## **Note (ONLY FOR INDEPENDENT CONSTRUCTION)**

The stand design shall be sent to the event organizer for approval in 3D format to the e-mail: [3d@belgradegaming.com](mailto:3d@belgradegaming.com) Confirmation that the stand meets technical conditions for construction shall be obtained.

**Important: Without the design approval the stand may not be constructed!**

## **TECHNICAL SERVICES (power, the internet and water connection)**

### **Electric power connection**

The Fair has got the voltage of 220 V single-phase and 3 x 380 V three-phase alternating current of 50 Hz. The exhibitors shall take care that all installation and devices shall be adapted to such voltage. If there is necessary power stringer than 15KW, the exhibitor shall mention it the application, in order to get the relevant connection.

Stand may have switchboard provided by the Fair (not included in the connection price) or the exhibitor may have his own which will be connected to the network. The installation connection shall be approved by the Hall 3 Supervisor.

All installations shall be in accordance with the technical rules or will not be allowed to be connected before the technical conditions are met. After providing the relevant connection with the marked technical capacity, consumption shall be as approved, whether the electric power is used for the stand lighting or the exhibit demonstration. The exhibitor may not make any changes or additions to the installation, or to exceed the allowed consumption capacity.

The electricity for the purpose of constructing a stand or testing the exhibits will be switched on at the stand from 27/05 until 30/05/2022 between 8 am and 8 pm, and in line with the technical service provider Belgrade Fair's regulations (no deviations are possible).

During the manifestation itself, the electricity will be switched on at the stand from 8 am to 6:30 pm i.e. it is recommended that all devices on the stand be switched off before 6:30 pm.

The organizer is under no circumstances responsible for any damage which may arise out of failure to switch the devices off.

Please contact the Hall 4 inspector: [hala4@sajam.rs](mailto:hala4@sajam.rs) for any further information.

### **The Internet connection**

The ordered Internet services will be available to you: Wi-Fi from the moment of arrival at Hall 3, and cable internet from 10 am on 30/05.

The types and prices of internet services are specified in the Pricelist for technical and other services.

Please contact the Belgrade Fair IT department: [It@sajam.rs](mailto:It@sajam.rs) for any further information.

### **Water connection**

If the exhibitors need plumbing installation this should be mentioned in the application form. The connection to the Fair's plumbing installation is possible. The relevant connection may be carried out only by the professional person of the Fair. All types and prices of water connections are specified in the Pricelist for technical and other services.

**Note**

The organizer is obligated to make all types of technical services available at a stand which is planned for a specific service, and that is the only location where the quality of service is guaranteed. The exhibitors need to have the number of users using a specific connection in mind and order the technical services accordingly.

Should the quality of service decrease due to a disproportion between the number of users and the capacity of specific service, the organizer shall not be held responsible.

## **OTHER SERVICES**

**Advertising services**

For the advertising services in the Hall, the organizer shall be contacted at [team@belgradegaming.com](mailto:team@belgradegaming.com)
