Mi smo firma koja je odlučila i usko se profilisala kao podrška kako arhitektama tako i kompanijama koje se bave uslužnim i javnim delatnostima. Sa nama, ne morate stalno tragati za novim materijalima da bi Vaš projekat, odnosno, objekat bio u trendu.

Mi to radimo za vas.

Osnovni cilj nam je da uspostavimo saradnju bez posrednika direktnu i transparentnu, a sve u cilju da kroz direktan kontakt sa arhitektom ili klijentom odgovorimo najbrže što možemo i ponudimo najbolje, najpovoljnije rešenje bilo da vam treba podna ili zidna odloga. Kombinujući naše proizvode Vaš projekat, odnosno, objekat nikog neće ostaviti ravnodušnim. Svako od nas želi da bude najbolji u tome što radi.

A kada se vam velike kompanije ukažu puno poverenje i slobodu u kreiranju osetite polet i rad kao i

saradnja postaje uživanje i celu priču podiže na jedan novi nivo. Ponosni smo što smo kao mlada firma okruženi pravim ljudima i pravim vrednostima i što svakog dana pravimo krupne korake ka zajedničkim i individualnim ciljevima.

Military Technical Institute

LABORATORY FOR TESTING INFORMATICS CHARACTERISTICS OF THE EQUIPMENT FOR ORGANIZING THE GAMES OF CHANCE

The Military Technical Institute (MTI) is the greatest scientific-research institution in the Republic of Serbia in the area of defensive technologies. Beside its primary activities, development of new weaponry and military equipment, the Institute provides its services, spare capacities, knowledge and experience to the third parties.

By the Conclusion of the Government of the Republic of Serbia, MTI has been appointed for the national laboratory for testing the fulfilment of the informatics characteristics of the equipment for organizing the games of chance.

In accordance to that, the Institute provides the services of testing the fulfillment of the informatics characteristics of the equipment for organizing the games of chance as follows:

- through the electronic communication means,
- so called "land base betting" and
- slot machines.

The fulfilment of the informatics characteristics of the equipment for organizing the games of chance through the electronic communication means and "land base betting" is conducted through testing the segments of the organizer's information system:

- computer network,
- system software and hardware,
- quality of the games of chance software,
- registration and control of the player's account,
- safety of information.

The fulfilment of the informatics characteristics of the equipment for organizing the games of chance on the slot machines is conducted through testing the segments of the organizer's information system:

- slot machine as a device,
- multiplayer games,
- software as a part of slot machine, RNG control of casino games,
- computer networks,
- system and application software and hardware,
- safety of information.

LABORATORY FOR TESTING INFORMATICS CHARACTERISTICS OF THE EQUIPMENT FOR ORGANIZING THE GAMES OF CHANCE

Highly qualified team of the Institute, oriented towards the needs of its clients, consists of the computer technicians, engineers, mathematicians and other profile experts that possess the real knowledge and experience in present-day leading technologies.

The procedures, skills of the people and devotion to their work present the guarantee that the Institute realizes the certification in a completely professional and unbiased manner.

The Laboratory of the Institute knows how to build, test and confirm the modern solutions for the games of chance. Testing of the equipment for organizing the games of chance is conducted in the laboratory, and for certain segments, by the use of mobile equipment, it is conducted directly at the organizers. The process testing, that takes place during the games of chance, is conducted by the direct insight into generated data at the organizer's server. The contemporary methodologies of test and evaluation are used. Special significance is given to the quality test of application software and safety of information.

Documents of the Quality Management System of the VTI protect the interests of the organizers, players and the state. All the protocols of data transfer in games of chance processes, currently available at our market, shall be appreciated.

The Institute issues general and additional certificates to the organizers. Besides, the Institute provides education services in the following areas: making of documentation, project

management, protection of clients' privacy and safeguarding of information, combating fraudulent and criminal behaviour, fair gaming (e.g. RNG and RTP- Return to Player game evaluation), responsible marketing etc.

The activities conducted as a part of this testing shall be conducted in accordance to the latest standards:

- ISO/IEC FCD 9126 Information Technology Software Product Quality
- SRPS ISO/IEC 27001 Information Technologies
- SRPS EN 55022 Information Technology Devices
- Characteristics of the radio interference

Војнотехнички институт је највећа научно-истраживачка институција у Републици Србији у области одбрамбених технологија. Осим примарне делатности, развоја новог наоружања и војне опреме, институт све своје слободне капацитете, знање и искуство ставља у функцију пружања услуга трећим лицима.

Влада Републике Србије именovala је ВТИ за националну лабораторију за проверу испуњености информатичких карактеристика опреме за приређивање игара на срећу. У складу са тим институт пружа услуге провере испуњеност информатичких карактеристика опреме за приређивање игара на срећу и то:

- преко средстава електронске комуникације,
- тзв. "земаљског клађења" и
- аутомата.

Испуњеност информатичких карактеристика опреме за приређивање игара на срећу преко средстава електронске комуникације и „земаљско клађење“ врши се кроз проверу сегмената информационог система приређивача:

- рачунарске мреже,
- системског софтвера и хардвера,
- квалитета софтвера за игре на срећу,
- регистрације и управљања налогом играча и
- безбедности информација.

Испуњеност информатичких карактеристика опреме за приређивање посебних игара на срећу на аутоматима, врши се кроз проверу сегмената информационог система приређивача:
